
LOGIT

A day in the life... of your business

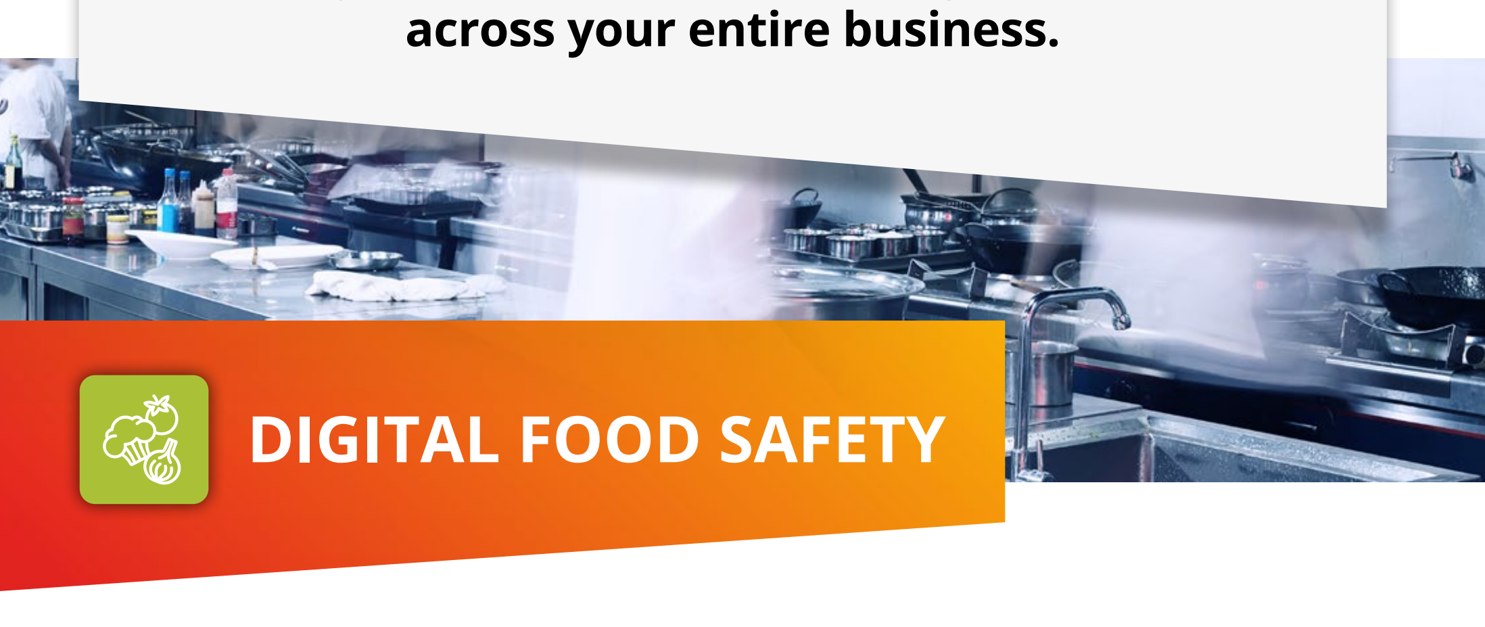
How Logit improves efficiencies and performance across departments and sites

Save time and reduce costs with the all-in-one solution

Digital Food Safety
Statutory Compliance
Maintenance
Housekeeping
Brand Standard Audits
Operational Checklists
Team Engagement
Guest Feedback

Logit is all you need to keep things running smoothly each and every day. We've put together a typical 'day in the life' of a business like yours to illustrate how Logit can work across your entire business.

DIGITAL FOOD SAFETY



The chef uses Logit to complete all the daily tasks.

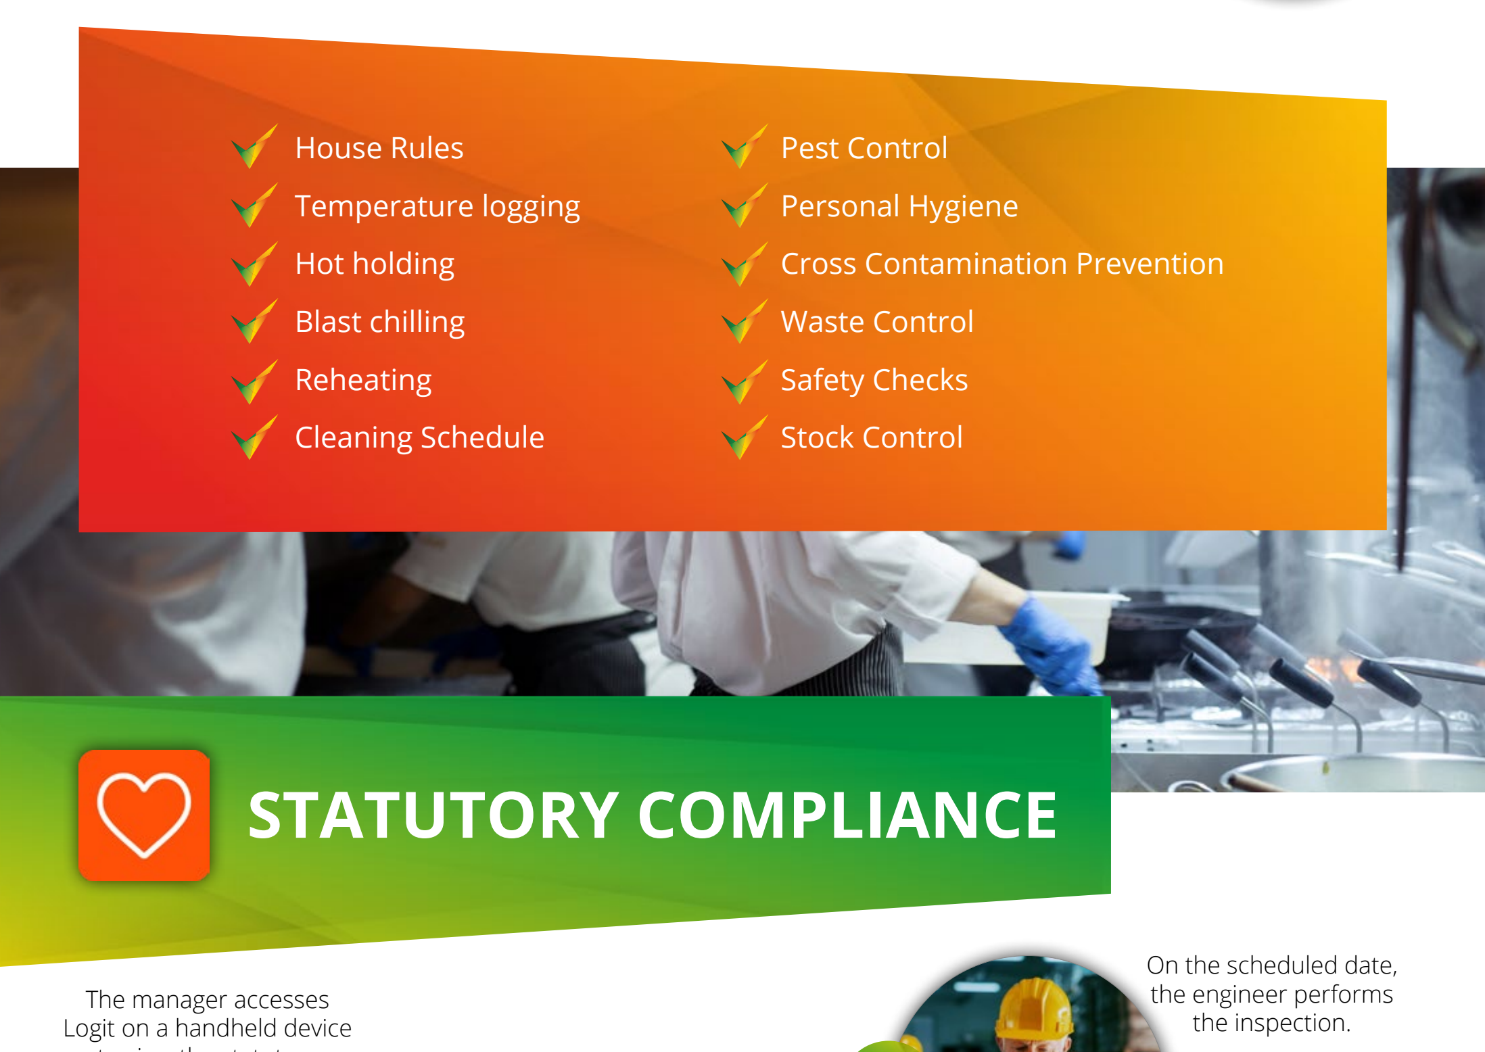
All checks are completed successfully

The manager is alerted that all food safety tasks have been successfully completed.

The EHO visit is a breeze since all data has been recorded and easy to access.

- ✓ House Rules
- ✓ Temperature logging
- ✓ Hot holding
- ✓ Blast chilling
- ✓ Reheating
- ✓ Cleaning Schedule
- ✓ Pest Control
- ✓ Personal Hygiene
- ✓ Cross Contamination Prevention
- ✓ Waste Control
- ✓ Safety Checks
- ✓ Stock Control

STATUTORY COMPLIANCE



The manager accesses Logit on a handheld device to view the statutory compliance calendar.

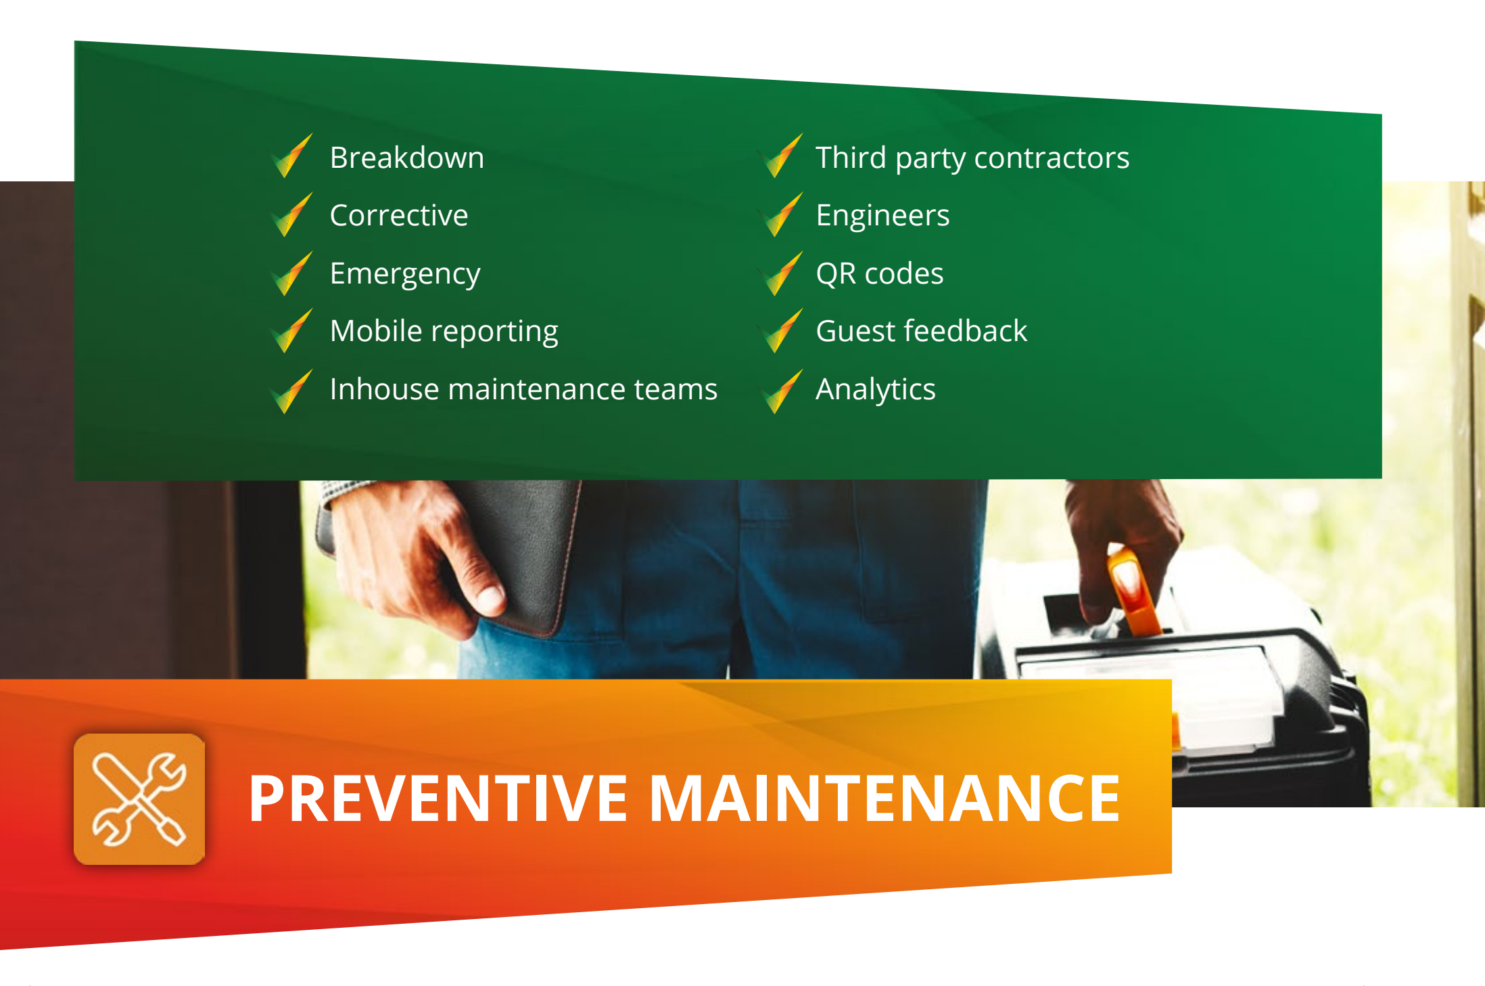
The manager follows company procedure and confirms onsite engineer visit.

On the scheduled date, the engineer performs the inspection.

The asset record and outcome is updated in Logit.

- ✓ Lift & Access Equipment
- ✓ Fire Safety
- ✓ Electrical Testing
- ✓ Water Hygiene
- ✓ Mechanical Plant & Gas Safety
- ✓ Air Conditioning & Refrigeration
- ✓ COVID-19
- ✓ Asbestos
- ✓ Legionella
- ✓ Slips, Trips and Falls
- ✓ Incident Reporting
- ✓ Personal Protection Equipment (PPE)
- ✓ Chemicals
- ✓ First Aid
- ✓ Risk Management
- ✓ Kitchen Extraction

REACTIVE MAINTENANCE



A staff member discovers a leaky tap. The employee easily raises a maintenance request for repair by scanning QR code and completes the request form. Comments and media (video & image) are included for visual clarity.

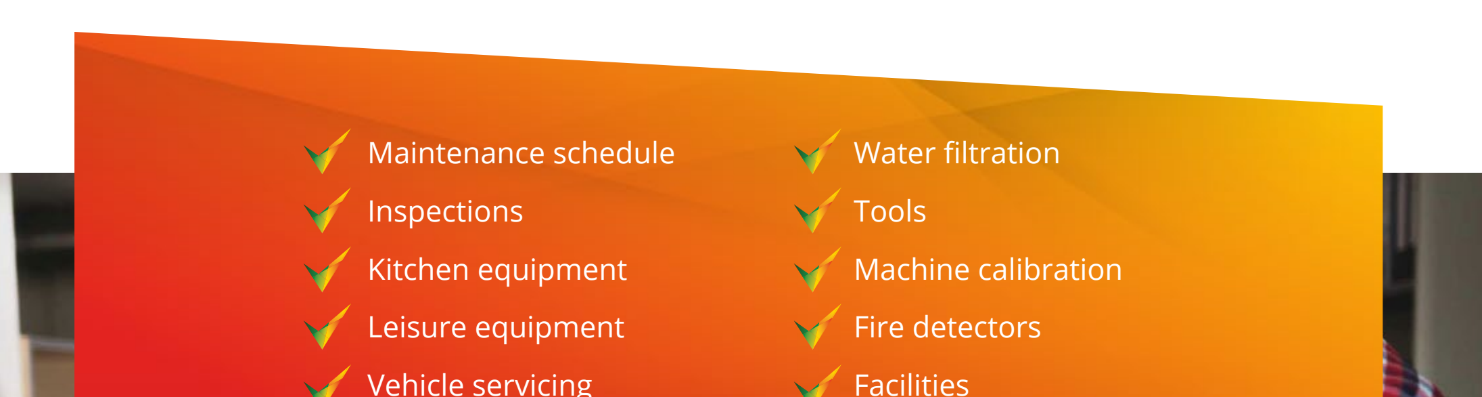
The system notifies the appropriate maintenance team member or the request can be auto allocated to a contractor.

The team member or contractor quickly quickly responds and repairs the tap.

Management can generate reports to review the status of a single request and/or performance of all requests.

- ✓ Breakdown
- ✓ Corrective
- ✓ Emergency
- ✓ Mobile reporting
- ✓ Inhouse maintenance teams
- ✓ Third party contractors
- ✓ Engineers
- ✓ QR codes
- ✓ Guest feedback
- ✓ Analytics

PREVENTIVE MAINTENANCE



The manager views upcoming tasks and schedules team members to complete the required service.

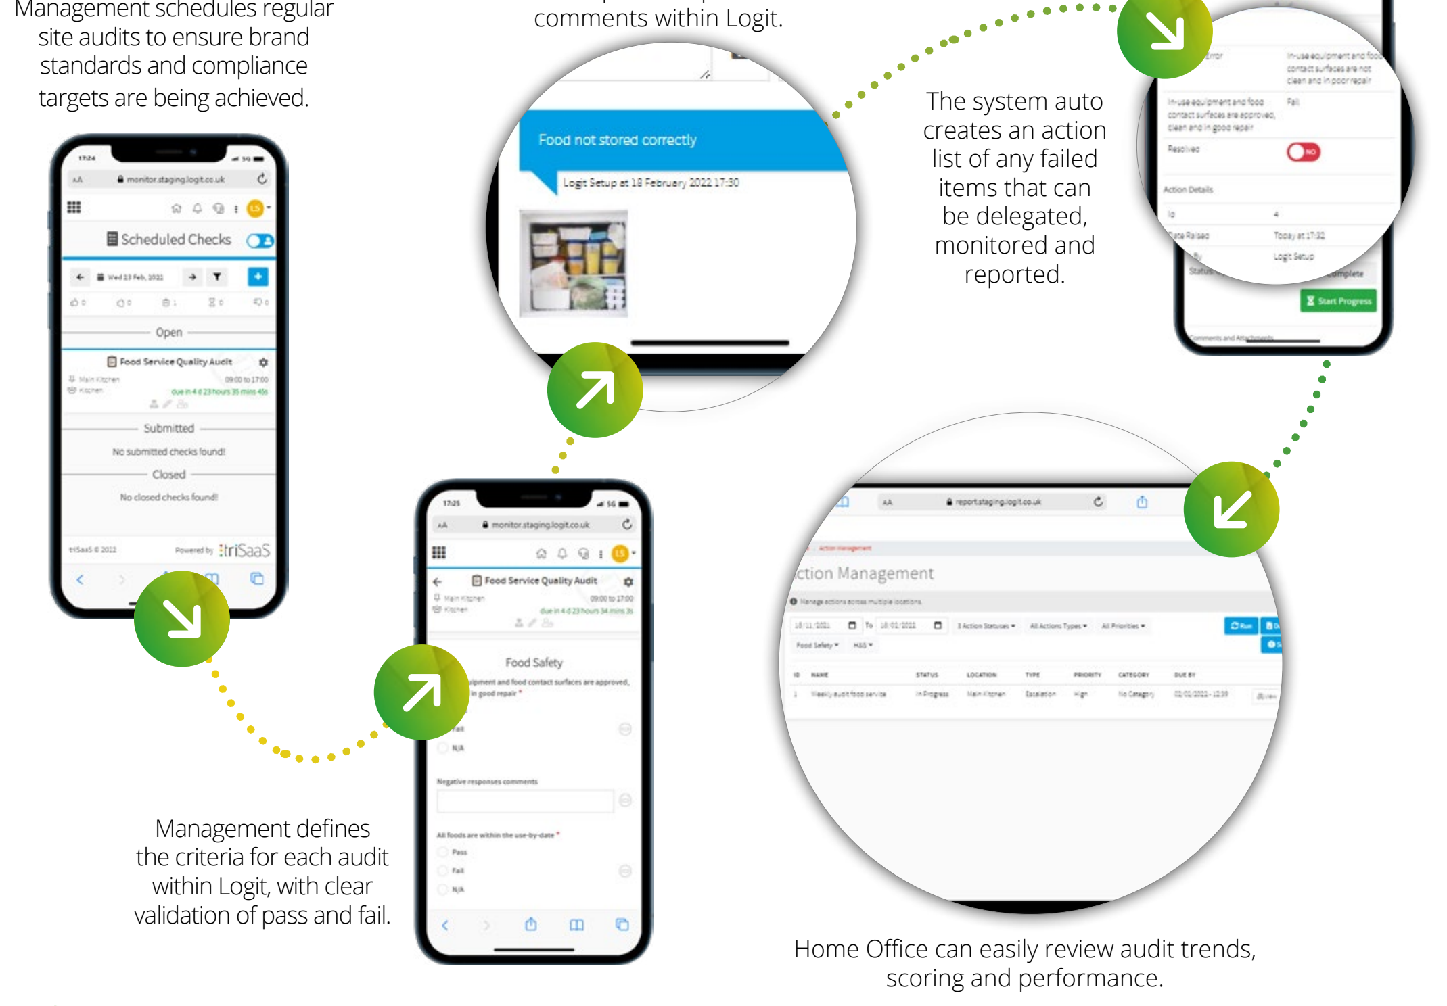
The team completes and records the tasks.

The system auto schedules the repeating tasks.

Management has complete visibility and oversight of all planned maintenance activities.

- ✓ Maintenance schedule
- ✓ Inspections
- ✓ Kitchen equipment
- ✓ Leisure equipment
- ✓ Vehicle servicing
- ✓ Mechanical & electrical
- ✓ Water filtration
- ✓ Tools
- ✓ Machine calibration
- ✓ Fire detectors
- ✓ Facilities
- ✓ PAT Testing

BRAND STANDARD AUDITS



Management schedules regular site audits to ensure brand standards and compliance targets are being achieved.

An auditor completes the site audit and provides photos and comments within Logit.

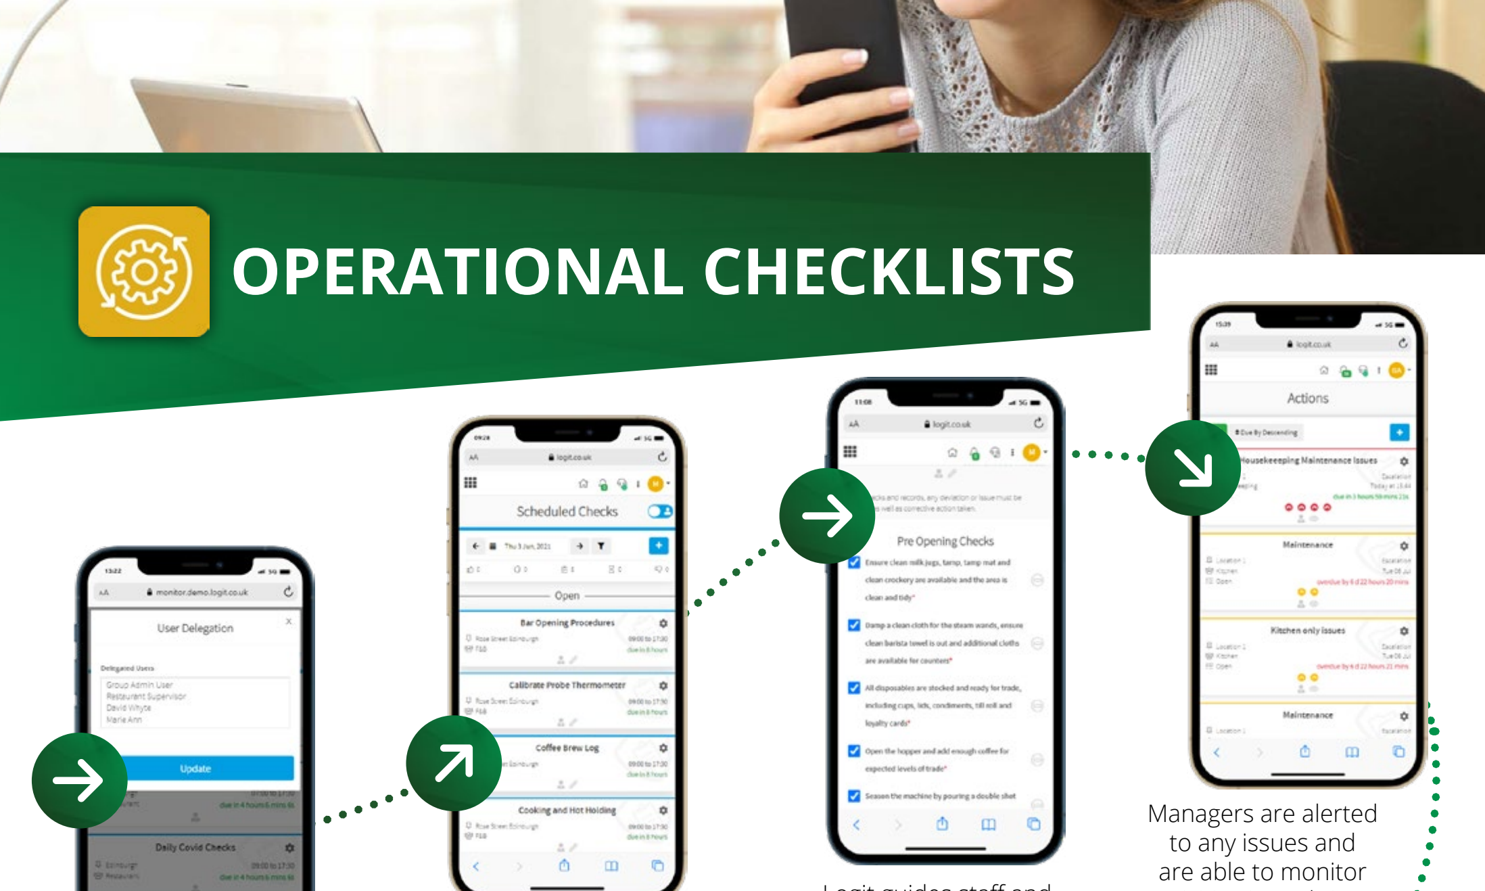
The system auto creates an action list of any failed items that can be delegated, monitored and reported.

Management defines the criteria for each audit within Logit, with clear validation of pass and fail.

Home Office can easily review audit trends, scoring and performance.

- ✓ Brand Standards
- ✓ SOPs
- ✓ Manuals
- ✓ Videos
- ✓ Audits
- ✓ Issue Resolution
- ✓ Trend Reporting
- ✓ Actionable Data
- ✓ Continuous Improvement
- ✓ Quality Control

OPERATIONAL CHECKLISTS



Management defines key tasks for all roles.

Team members log in to view all the tasks they are required to perform that day.

Logit guides staff and records their progress throughout the day.

Managers are alerted to any issues and are able to monitor activities in real-time.

Management has visibility across the organisation and can easily access reports to identify trends and measure performance.

- ✓ Automate Processes
- ✓ Operations Checklists
- ✓ Actions
- ✓ Improve Efficiencies
- ✓ Increase Productivity
- ✓ League Tables
- ✓ Trends
- ✓ Optimise Performance

TEAM ENGAGEMENT

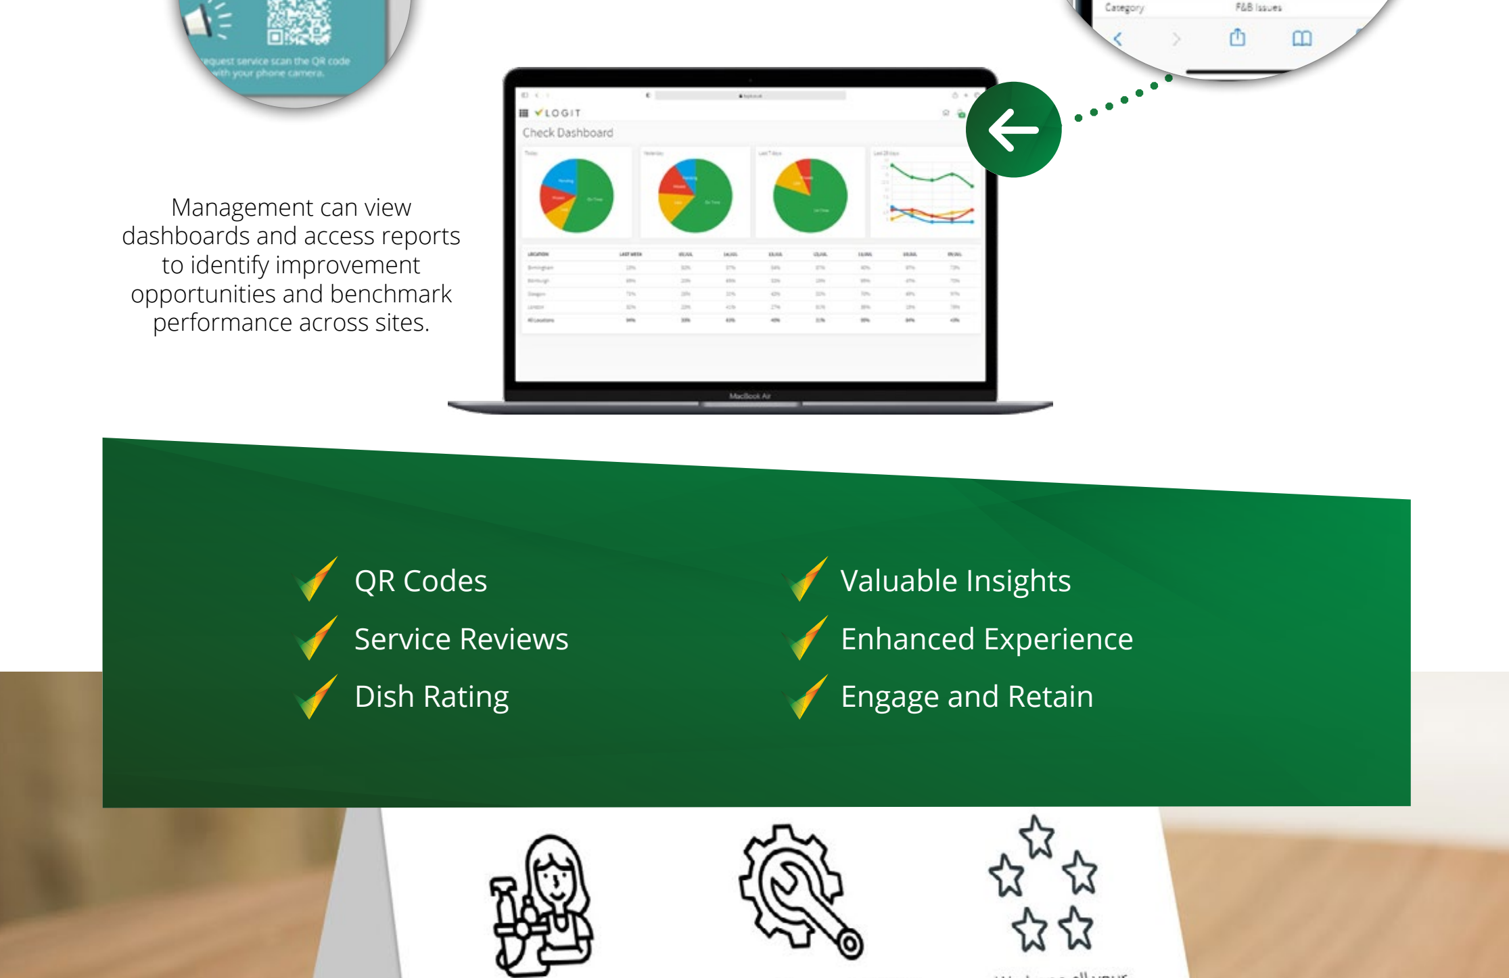
The CEO wants to communicate directly to staff about some exciting news. She simply sends her communication to all workers using Logit.

Team members instantly receive the CEO's news on their mobile device. They acknowledge and congratulate peers on the good news using the Kudos feature.

Logit's Chatterbox also enables management and teams to send group messages across sites instant messages and photos for real-time engagement.

- ✓ News
- ✓ Communications
- ✓ Connect
- ✓ Align
- ✓ Recognition
- ✓ Reward
- ✓ Motivate
- ✓ Empower
- ✓ Suggestion Box
- ✓ Reduce Staff Turnover

GUEST FEEDBACK



Guests scan QR codes in designated touchpoints to instantly provide feedback across the customer journey.

Logit forms save time and keep teams informed by capturing valuable guest insights.

A customer issue or complaint generates an action, ensuring team members resolve the matter expediently.

Management can view dashboards and access reports to identify improvement opportunities and benchmark performance across sites.

- ✓ QR Codes
- ✓ Service Reviews
- ✓ Dish Rating
- ✓ Valuable Insights
- ✓ Enhanced Experience
- ✓ Engage and Retain

Pillow, blanket, toiletries, towel... whatever you
Something needs fixing or attention.... lightbulb, leak, showerhead... let us
We hope all your expectations were met. Was your experience everything you imagined?

BUT THAT'S NOT ALL...

Digitise so much more with Logit

If you're doing it using paper and manual processes, leave it to Logit for improving efficiencies and performance.
